Provision and operation of Foto-GIS

- NGN ITS provides a geo-redundant GIS cloud platform for the online photo documentation system.
- The SSL security certificates for all interfaces are provided by NGN ITS.
- The client is provided with the Foto-GIS applications for mobile devices for use in the field.
 - Apple iOS (starting with version 12.0) <https://itunes.apple.com/de/app/foto-gis/id1249212248?l=en&mt=8>
 - and Android (starting with version 9) <https://play.google.com/store/apps/details?id=com.app.fotogis>
- The entire system get's provided and technically supported by NGN ITS for the duration of the contract. Any errors should be reported immediately to support@foto-gis.eu stating the client, user, any terminal device and an exact description of the error.
- The user administration for internal and external users is entirely subject to the customer.
- The data, especially all photo data, is stored exclusively in German data centres with the highest security level (ISO 27001, ISO 50001, ISO 9001, BSI-IGZ-0303-2017) of NGN ITS (currently in Berlin, Germany).
- The General Terms and Conditions and Terms of Use of NGN ITS at <https://www.foto-gis.eu/agb> apply.
- For details of the Foto-GIS product, see the current product description at <https://www.foto-gis.eu/#system-trio>
- The stored data, in particular all photos, principally belong to the client or the clients and partners of clients.
- The notice period is one month.
- After termination, all the data is transferred to an external data carrier provided by the customer and is only deleted from the systems after the transfer has been confirmed by the customer.
- In order to use the service, the customer or each external customer and user confirms in principle that they comply with the applicable data protection guidelines and will conclude a corresponding data protection agreement separately.
- Customer is fully responsible for compliance with the data protection policy, not the technical operator of the Foto-GIS Cloud solution.
- Contractual partner and responsible for the service Foto-GIS is the company NGN IT Solutions GmbH. Hauptstraße 15, D-97633 Aubstadt (info@ngn-itsolutions.eu)
